- DEATH AT AN EXTREME OLD AGE, -We are informed that a resident of Williamsburk Distriot, near Kingstree, died recently at the advanced age of one hundred and forty years. This is almost unprecedented, and the aged lady is understood to have preserved her faculties to the last.

SUNBTROKE -Yesterday morning, while three boys, apprentices of Mr. Bryan, were re-pairing the tin roof on the Charleston Hotel, one of them, named Peter Anderson, fell beneath the overpowering rays of the sun and the reflection from the heated roof. Dr. E. H. Kellers was called in, and succeeded in restoring animation, and the boy is now considered out of danger.

MUSIC ON THE BATTERY.-The following is the programme for this evening:

1. Overture—Dichter and Bauer.
2. Waltz—Queen of the Sea.
3. Potpourri—Rigoletto.
4. Polka—Tentonis.
5. Duet and Finale—Lucrezia Borgia.
6. Gallop—Night Bell.
7. "How can Heave thee."

QUITE A TREAT .- One of the finest of the kindly truits of the season," a large ripe and luscious watermelon, was sent to the sanctum yesterday by Mrs. Kendrick, fruiterer, in Market-street. The melon was doomed, and soon nothing but a bare rind and a few seeds remained to tell the tale. Mrs. Kendrick is a renowned dealer in fruits and vegetables, and her customers will never desert her while watermelons like the sample sent us are offered

A TRIBUTE TO BLIGHTED HOPES.—It is reported that the lamppost in front of the customhouse on East Bay was found at an early hour yesterday morning to be draped with crape and sition has not, however, been considered suffiwhite cambric. CORONER's INQUEST. The lost child of Mr. Silverstein was accidentally discovered yesterday morning in the privy of the adjoining tenement. The body was immediately removed, and a Coroner's inquest being held, a verdict of accidental death rend-red. Mr. Silverstein had searched every spot on his own premises, and the family were completely disconsolate. A careful examination of the body by Dr. T. Grange Simons showed no bruises, or anything that would have caused death. Mr. Silverstein will necessarily be compelled to neglect his usual business for a few days.

When are we to have our grand mass meeting in Charleston? It is understood that the Columbia delegation have returned to that city from New York, and it is the desire of our whole people that General Hampton should, in company with Mr. Campbell and Col. Simonton, address the Damocracy of Charleston.

ing letter appears in the Phoenix:

Mr. Editor: In your issue of yesterday, (the 15th.) there appeared an article, over the signature of "Edgefield." in reply to an editorial in the Charleston Mercury, of the 7th, in regard to the Charlotte and South Carolina roads, and Charleston, in which he says:

"Since writing the foregoing, I have learned that the Charlotte Road has now in operation train made and proposed by it to the South Carolina Railroad, between Charlotte and Charleston, cheaper by far than any one ever heretofore in operation, either before or since the war."

This question is now one which concerns the whole State. Why cannot the Board of Trade take the matter in hand, and show the upcountry who is to blame?

ANOTHER HOT DAY .- Yesterday was decidedy the hottest of the season, superlatively red hot. Every thing that lived, moved, or had a being, felt the enervating effects of the weather and succumbed instantly. Shade was but the shadow of a dream, and there was no dodging the issue, unless the individual sheltered himself under an umbrells. A number of the perspiring victims who met at a corner thought that Dr. Kane, of Arctic memory, should be telegraphed to, as he could find a large company pertectly willing to take a trip to the North Pole and climb an iceberg. Many of the unfortunates were seen at intervals reclining gracefully against a straw, and gently imbibing the cooling fluids with an utter disregard to the outside heat. Aside from the case of sunstroke mentioned elsewhere, it was rumored that two men in the upper part of the city also fell victims to the heat. Few taken place this afternoon, has been postponed dared to risk the sun, and beyond wilted shirts on account of a prior engagement between the and collars, no other serious casualties are reported.

THE COTTON CATERPILLAR.—We regret to say "The Times, or Chaos has come again. A Se- that one of these cotton destroyers was to be seen yesterday at the office of Messra. Fraser & Dill, cotton factors, on Adger's wharves. This specimen was taken on Thursday last from a field on James Island, now under the management of freedmen.

Its early appearance will cause serious apprehensions in the minds of all who are interested in the successful raising of a crop of long staple cotton during the present season, and taken in connection with increasing reports from Florida announcing its prevalence there in numerous quarters, it is to be feared that much damage may again be sustained from the ravages of this most destructive insect. Further intelligence in regard to its movements will be anxiously looked for.

A New Enterprise. The Georgetown Times says: "We understand our 'go-ahead' citizen, Mr. A. Morgan, has inaugurated a movement which cannot fail to be of great public penefit to our town and district, as well as the surrounding country. In a short time the teamer 'General Manigauit' will commence her trips up the Pee Dee, and will connect with the steamer 'Emilie,' from Charleston, and a line of good schooners between this port and New York.' A trip will be made by the steamer every two weeks, or oftener f necessary. Mr. Morgan , will forward cot. ton from Cheraw to New York (insurance excepted) at not over \$3 per bale, and no doubt at times much less." This is certainly a great inducement to planters, shippers and others, and can scarcely fall of success.

ANOTHER RACE.-The Savannah Republican says: "We understand that arrangements are being perfected for another yacht race, to come off at White Bluff one week from to-day (on the 23d instant). Several yachts have already been entered, and others are expected to participate. It is proposed to devote the day to sport and pleasure, and it is probable that there will be several races. Prizes have been made up to be contended for.

"The celebrated yacht 'Maggie Mitchell,' of Charleston, will be present, and will take partin the contest. Those having charge of the arrangements are doing everything in their power to have the race co ne off with ecial, and to make the day one, the enjoyment of which will long be remembered."

> CHARLESTON MOVING-A BIG STRIDE TO THE FRONT .- It is with great pleasure that we announce the beginning of a new enterprise which will prove that there is life still in Charleston. Some months ago the lot of land on Rutledge Avenue, fronting on the pond, was purchased by our townsman, Mr. George W. Williams, and it was thought at the time that this wealthy and sagacious gentleman intended to put upon it some improvements of a solid and handsome kind. Calling to his assistance Mr. John H. Devereux, the well known architect, and Colonel James H. Taylor, of the firm of G. W. Williams, a gentleman of great taste in such matters, he arranged a set of plans for the building of a range of dwelling houses on the hand referred to.

The buildings will face the pond and will be in the colebrated Mansard style, the roof decorated with bold and overh ring cornices and the windows and doors be: lifully capped and finished. A verandah supported on clust-Stanley will give an account of their steward- ered columns and fringed with a lace work of range promises to be worthy of the liberality and enterprise of Mr. Williams, and the ability of his architect.

The work has been contracted for and will be begun at once. It is hoped that the new houses will be finished by September next.

WHERE THE MONEY COMES FROM .- We have been shown, says the Yorkville Enquirer, the following circular adddressed to a postmaster in this county. It seems to cost something to hold office under the Republican party. As this paper was ..ddressed to a lady, whose right of suffrage has not yet been established, we presume it missed its mark. At any rate, the eighteen dollars have not been sent:

DEMOCRATIC MEETING IN WARD No. 1 .-- A the meeting was organized by calling Theo. G. Barker, Esq., to the chair; Captain C. E. Chichester was requested to act as secretary. On motion of A. T. Smythe, Esq., the rules of Ward No. 6 were adopted, and the chairman requested to nominate a committee of rive, who would report the names of suitable persons for permanent officers, and also five names for the Finance Committee. This was subsequently withdrawn as far as the president was concerned, and Theo. G. Barker, Esq., was unanimously elected president, who acknowledged

the compliment in an appropriate speech. The following gentlemen were named as the committee of five: W. L. Daggett, W. S. Adams, A. Habenicht Thad, Street and B McInnis.

Captain Chichester then offered the following resolutions, which were unanimously adopted, when the meeting adjourned to meet on Wednesday night:

Wednesday night:

Reso'ved, That the Democratic Club of Ward No. 1 of the City of Charleston fully and heartily endorse the nomination of Horatio Seymour and F. P. Blair as candidates for the positions of President and Vice-President of the United States.

Resolved, That the platform put forth by the great Democratic party recently, in New York meets our fullest and warmest approval, and we pledge ourselves to stand by that platform with all our strength and influence.

Resolved, That this Club will do all that lies in its power to elect said candidates, and carry out the provisions of said platform at the coming Presidential election.

DEMOCRATIC MEETING IN WARD No. 2 .- A arge meeting of the Democratic residents of this ward assembled in one of the committee rooms of the Hibernian Hall last night. Mr. Motte Pringle took the chair, and the Secretary, Mr. J. G. Moffett, presented the rules prepared by the committee appointed for that pur-

pose, which were read by sections and adopted.

An election for officers was then held, with the

following result: JAMES M., MULVANY, 1st Vice-President.
JAMES M., MULVANY, 1st Vice-President.
JAMES 1t. PRINGLE, 2d Vice-President.
JOHN HURKAMP, 3d Vice-President.
JAMES 6. MOFFETT, Secretary.
J. T. DILL, Treasurer.

A committee was appointed to wait on Mr. Miles, who was conducted to the chair, and acknowledged the compliment in a well chosen speech. General James Conner offered the

following resolution, which was adopted : Resolved, That the President of this club invite the other clubs in the several wards of the city to send a committee of three to meet a similar committee from this ward, for the purpose of a stablishing a general system for the efficient and united action of all the clubs, such committee to action of all the clubs, such committee to report the result of the conference to the respective clubs for informa

sketch of the latest fashions for ladies : MISCELLANEOUS. Colors in costumes are more gay and altogether more diversified than formerly; but there is still a preference for black or white. and also for the buff, which looks like dead gold. Black has survived even to the heat of the summer weather, and appears in all the them. An effort is now being made among thin materials—grenadine, crepe, barege. It is not, however, so fashionably trimmed with colors as last season. The ruffles of the matarials are edged with narrow fringe, or they are made of silk into ruchings, notched out upon

> the edge. Straw trimming, straw fringe, or stray braids, are not a novelty upon thin black suits, but they are considered very aristocratic. Straw fringe is used as a border to the upper skirts and paletots. If it is very narrow it may also be employed for edging ruffles. The braid forms a heading, or is very effectively run through the centre of ruches made of silk

or of the same material as the dress. Almost all the fashionable summer costumes are made with ruffles and puffed out behind, the sash or ends of the Marie Antoinette fichu passing under the pouf, and sustaining it in its place. Magnificent white dresses, one mass of puffing and tucking, are tied up in this way, with wide ends of the material edged with ruffles of the same without lace or colors, with exceedingly good effect. So much depends, however, upon the skill of the dressmaker in properly arranging the drapery that it is not eafe for an inexperienced person to even try to

The short dress is still popular, and meets so entirely the common sense and judgment of our ladies that we hope it will be a fixed institution. Its great advantage is that it affords every woman a neat and uniform dress, whether she can afford trimming or costly material or not A short dress and cloak of the same. even of cheap material, and without trimming, is always convenient, neat and lady-like.

Cloaks are a superfluity; suits have almost altogether taken their place, and all that is necessary is to devise a method of making them warm enough for winter to render them the popular street style all the year round.

BONNETS.

No material change is noticed, and none will take place until the approach of fall and winter renders necessary better protection for

the head. The small bonnets have reached the minimum of littleness. Of straw there is only a narrow strip, which serves as a foundation for the garland of leaves or flowers, and as a support for the lace falling at the back and cross-

ing in the front as ornamental strings. This style has been common in silk, tulle and straw, all the season. New and fresh, it possesses a certain grace, particularly if worn in conjunction with an elegant toilet; but the lace soon looks untidy and stringy with use, especially if it is of a common quality, and then the bonnet looks shabby and spoils the entire toilet. The favorite method of trimming is with black lace and a garland of field | that constipation, the result of a disordered stomach

The "Jardiniero" is the prettiest style for country wear in round hats, and the "Diane" the most elegant in straw for riding. Long. curled ostrich plumes have been revived, by the way, to ornament the "Diane," and are very graceful. Nothing:so becoming has been worn in their places. For carriage costume and morning visits a little pour bonnet of white talle is worn, with talle lappets, which tie under the chignon behind. A wreath of white lilac is generally carried across the front, and forms a necklace. The fashionable chignon now forms a mass of ringlets. CLOARS AND MANTLES.

There is great latitude awarded to outdoor covering of all kinds; people can wear what they please, so long as it is pretty and becoming, and even if it is odd, peculiar, and different altogether from styles ordinarily worn, it will only be looked upon as a newer fashion. The summer season has brought out a great | For sale by all Druggists. s

figure and confined by a wide sash of silk or lace. There are still short sacs to be seen,

A fashionable style of fichu, in black silk, is by one button, and turns back with long ends, that are tied with a large bow. In silk, lace, muslin or material en suite, the Marie Antoinette fichu is the most fashionable garment of large number of the residents of Ward No. 1 the season. In white muslin trimmed with met at the South Carolina Hall last night, and frills of lace, or ruffles of the same material, it is extremely pretty either en suite or worn with

dresses of printed organdie. There is a loose, good-sized mantle, with a sac back, mantilla front, and rather wide sleeves, which has been largely adopted by elderly ladies. It is a very useful and convenient summer silk cloak for a lady of fifty or theresbonts.

Lace showls and thin hurnouses are in high vogue, with light toilets. Lace shawls, especially since the introduction of Lama lace, are considered indispensable to a wardrobe by ladies of almost all classes.

Malaria, the most deadly enemy of health, is every where active in July and August. The blazing sun is decomposing and fermenting every species of vegetable and animal abomination, and poisonous gases and infact the aratem present. On the prairies, in the swamps, in the woods, and in the midst of crowded cities this development of the elements of disease is now going on. In short, the human body is in a state of siege. and reason and common sense suggest that its defences be strengthened. A stimulant, a tonic, a corrective and an alterative are required to put it in perfect trim, and these four grand requisites are combined in HOSTETTER'S STOMACH BITTERS. A man must be made of steel not to be affected by the morbid matter set affeat in the atmosphere by the rays of an almost vertical sun. Nine-tenths of the community are premonished at this season by debility, indigestion, headache, want of appetite, india position for exertion, nervousness, &c., that they need something to build them up and regulate their animal machinery. Do they want to "fight it out on that line all summer," or to achieve an immediate victory over their unpleasant symptoms, and secure that first of Heaven's blessings, "a sound mind in a sound body?" If the latter is their desire let them resort to the Bitters without delay. That agreeable and potent vegetable regenerative will soon restore the system to its balance-regulating the liver, strengthening the stomach, gently relieving the bowels, and giving vigor, elasticity and energy to the whole frame. These are proven facts. No man who reads the testimony on which they are founded can

for a moment doubt them. 6 " July 18 CAN BALDNESS BE CURED ?-WE answer IT CAN, for it is now a well known fact that the justly celebrated PALMETTO HAIR RENEWER. which is extensively sold throughout the South, will, in most cases, start a new growth of Hair on Bald

WHAT IS THE MATTER WITH YOU? This is the familiar question put to every invalid. In many cases the answer is, "I don't know exactly, but I don't feel well." Look at the countenance of the man or woman who makes this reply, and you will generally find that the eyes are dull and lustreless, the complexion sallow, the cheeks flaccid, and the whole expression of the face dejected. Interrogate the invalid more closely, and you will discover and a torpid liver, is at the bottom of the mischief. "That's what's the matter." LIERCHANTS, FACTORS AND BUSINESS MEN everywhere, but more especially in the City of Charleston, will please bear in mind that the BARN-WELL SENTINEL is one of the best advertising mediums in the State, circulating at every postoffice in the District, and has been in existence since 1852. Business men would consult their interest by trying some of the Printer's link used at that establishment.
